

CAPABILITY STATEMENT

OVERVIEW

Lotus USA, Inc. commenced its operations in September 2014, dedicated to delivering top-notch services that yield remarkable results and ensure the highest Return on Investment (ROI) for our clients. Our core expertise lies in crafting and incorporating cutting-edge business solutions, offering comprehensive management consulting services, and acting as a premier procurement system integrator for essential equipment across prominent technology sectors. These include networking hardware, software solutions, telecommunications equipment, construction materials, and heavy-duty rental equipment, along with technology services tailored for both Public Sector and Enterprise clientele. Over the years, Lotus has successfully executed a staggering 675 contracts with federal agencies, state governments, municipalities, and major cities throughout the United States.

PROFESSIONAL SERVICES

Lotus stands as a reliable and well-established partner in the realm of contracting, specializing in an array of essential services. With a proven track record and a wealth of resources at our disposal, Lotus excels in delivering critical services, including medical staffing, process outsourcing, technology solutions, engineering services, and application development. We possess the necessary expertise to procure equipment for government agencies and commercial clients with utmost efficiency.

Our forte lies in the recruitment, credentialing, and retention of top-tier professionals, ensuring that our clients have access to a highly skilled workforce. When it comes to equipment procurement, our commitment is to execute the task reliably and punctually, thus contributing to the success of contracts and missions. We employ effective strategies that empower our clients to harness cutting-edge technologies and enhance their operations in the most cost-effective manner.

Within our staffing division, Lotus is renowned for placing top technology professionals in various positions, ranging from contract and contract-to-hire to direct hire and Statement of Work (SOW)-based roles, serving both government agencies and industry leaders.

We specialize in custom development, offering tailored solutions that align seamlessly with our customers' unique requirements. Whether it's integrating a client's product into their existing lineup or offering technology and business domain consulting, Lotus is well-equipped to meet these needs. Our delivery models are both flexible and cost-effective, featuring dedicated account teams, skill-based recruiters, and proven systems and processes.

What truly sets us apart is our Consultant care teams, setting new industry standards by ensuring a mutually satisfactory assignment experience for both consultants and clients. We also provide comprehensive services, including research and requirements analysis, prototyping, and iterative design, while our professionals are experienced in working within a development environment using tools such as Linux, GIT, JIRA, and Jenkins.

Lotus boasts a talented and diverse staff with a broad range of skills, including Cisco CCNA certification, expertise in Embedded Software, EPIC Implementation, Python-based automated report and data pipeline development, as well as proficiency in Network Security, Email Security, Web Security, Cloud Solutions (including IBM, AZURE, AWS, and Snowflake), Networking architecture, Backup Recovery, Broadband, Cellular & Data Radios, and WLAN technologies.

Lotus offers comprehensive equipment calibration services, ensuring precision and accuracy in measurements for industries reliant on reliable data. With state-of-the-art facilities and experienced professionals, Lotus is a trusted partner in maintaining calibration standards for diverse equipment.

PROCUREMENT AND SYSTEM INTEGRATOR SERVICES

We provide essential support to the public sector in the acquisition of Goods and Services across various vital domains, which include:

- (a) Procurement of leading brands' computer hardware, networking equipment, and software, such as Cisco, Dell, HP, HPE, Lenovo, Microsoft, Ivanti, Meraki, and Juniper.
- (b) Offering both sale and rental options for heavy machinery, catering to the industrial and construction sectors, facilitating their project needs.
- (c) Facilitating the procurement of medical equipment, telehealth solutions, and laboratory equipment, ensuring access to critical healthcare resources.
- (d) Providing access to radio equipment from trusted manufacturers like Harris, Motorola, and Rockwell Collins.
- (e) Sourcing a wide range of essential components, including sensors, cables, networking infrastructure, telephone systems, electrical equipment, power supplies, UPS (Uninterruptible Power Supply) units, generators, batteries, and more.
- (f) Enabling the public sector to enhance communication and collaboration through Unified Communication and Collaboration (UCC) solutions, including video conferencing, UCaaS (Unified Communications as a Service) ecosystem, voice phone systems, networking systems, and associated accessories.
